January 2019

Dear Friend

The Athenian Chapter HJ-1 of AHEPA has undertaken the task of building a medical library at Evangelismos Hospital. Due to the recent financial crisis, Greek medical libraries, lack updated equipment such as computers, databases, scientific books & journals and collaboration with similar libraries abroad.

AHEPA has chosen Evangelismos Hospital, which is the largest in Greece and one of the largest in the Balkans, to create a state of the art center for education and knowledge on disease prevention and medical treatment for the benefit of more comprehensive and effective medical services. AHEPA aims to collaborate with innovative and specialized organizations in order to create a modern center of medical information with worldwide interconnection.

We are asking for your generous support, to help raise the required funds to complete this important project, which will be located inside the recently built, new wing of the Evangelismos Hospital.

Each donor of 1000 Euros and over will have their name inscribed in a plaque which will be located inside the medical library.

Please see below the different levels of support and sponsorship.

**10.000** Euros *Grand Benefactor*. Special mention inside the library, and over advertised in our webpages, in monthly newsletters and relevant correspondence

**5.000** Euros *Platinum Sponsor*. Advertised in the Chapter and Library webpage and in relevant correspondence.

**3.000** Euros *Gold Sponsor*. Mentioned in the list of donors in relevant correspondence

**2.000** Euros *Silver Sponsor*. Mentioned in the list of donors

**1.000** Euros *Bronze Sponsor*. Mentioned in the list of sponsors

**100-999** Euros Certificate of appreciation

For further information and details, please visit our web site:
